Assisted Immigration.

From a remark dropped by His Excellency the Governor in reply to the address presented by the Committee of Agriculturists from Cowichan District, we are given to understand that a proposition for the establishment of a system of assisted immigration from the old country will be laid by the Government at an early day before the Legislative Council for action. The proposition will be worthy the earnest attention of the people of both sections, inasmuch as all are agreed that what we now want to make us great and prosperous is population. The continual cry has been for many months that, with vast mineral resources, inexhaustible forests, rich tracts of farming land, and illimitable fisheries—with an unequalled climate, and every blessing that Nature can bestow with a lavish hand upon a country, we have not only failed to keep pace with other colonies in the march of progress, but have fallen far behind the most insignificant dependency of the British Crown in everything that makes a country. Twice within a decade have we had, within our grasp thousands of immigrants who needed but slight encouragement to induce them to cast their lots in this favored land; and twice have we seen them flit away with hardly an effort made to retain them in our midst by either Government or people. Instead of the newly arrived immigrants being met at the threshold with kind words of encouragement, and advice, and proffers of assistance, they have too often been treated with a coldness and indifference that both disengaged and stunned them. To have left comfortable but humble homes in the old country, and traveled many weary miles to reach the land of promise, to be met on the very wharf with coldness from those whose interest and duty it was to see that a kind welcome was extended to the immigrants instead, was most disheartening. No other Colony is more dependent for success upon the settlement of its lands and the development of its resources than this, and in no other Colony, we will venture to say, has an equal amount of apathy and indifference been shown, or the cold shoulder presented more persistently than in this. It was nothing but coldness and neglect that drove thousands to settle in the adjacent American States and Territories (where they were received with open arms), and the same cause is at work now to still further depopulate the country. There is no reason why we should go on year after year, pursuing the same downward trail. There is no reason why we should inaugurate a system for assisting British immigrants to reach the Colony, and then leave them to find their way to California after they arrive here. And there is no reason why the country is not to-day advancing instead of retrograding—except the one we have named. To have our country filled up we must not only assist people to reach our shores, but we must show them the way to earn a living after they get here. Especially should this be the case with the immigrant who brings a family into the Colony. Scores of young Colonists—“native and to the manor born”—have been driven from the Colony, because their parents failed to meet with the encouragement from Government or people they had right to expect. Why, in all earnestness, we ask, should this continue? Why is not an effort made to retain respectable families when once they reach the Colony? Surely it must be patent to the most obtuse intellect, that a system which proposes to assist immigrants to reach the country, but withdraws all assistance the moment they land, is not a system that can prove successful. It is the old system over again—a system that has converted our Island into a landing place for British immigrants, who, so soon as they have dropped their “sea-legs,” travel to the other side of the line. We believe in assisting immigration to a moderate and reasonable extent; but we do not want to see the scenes of the past nine years reenacted, nor do we wish to see the Colony afflicted with the same evils that have befallen the Australian Colony of Queensland, into which thousands of English men, women and children were carried but to starve and die. We hope that Government will lay an immigration scheme before the Council at an early day; but we also hope that it will not

propose to expend all the monies in paying for passages to the Colony, and retain no funds wherewith to assist the immigrants upon their arrival.

Dr. Helmcken.

In response to the request of many electors, Dr. Helmcken has consented to stand in District No. 1 as a candidate for the Legislative Council. The request and reply appear this morning. Of all the gentlemen thus far proposed for the Council, we know of none so worthy of the highest honor the electors can confer upon a fellow citizen, and none more competent to fulfil the duties of the position, than Dr. Helmcken. For nine years the Doctor was a member of the Legislative Assembly of Vancouver Island, and during the whole of that period discharged the duties of Speaker with ability, honesty, and impartiality. Dr. Helmcken requires no eulogy—his past services speak for themselves; and his honesty, amiability, integrity, and unwearied devotion to the popular cause, have won for him the respect and attachment of a grateful constituency, and of the Islanders at large. We predict the return of the Doctor without an effort.

Dinner.

(Communicated.)

I had the good fortune to be one of the partakers of a delightful dinner given in honor of C. C. Pendergast, Esq., at the Colonial Hotel, and was much impressed with the many good things that I shared with my friends. The table was supplied with inland grown vegetables of excellent quality, the asparaguses and artichokes in particular, which at this season of the year are a rare delicacy, would have done credit to any more temperate climate. The enclosed bill of fare will enable your readers to form some estimation of the resources of this remote spot, and the capabilities of Mr. Driard's cuisine:

Municipal Council.

MONDAY, Dec. 10th.
The Council met at 7 p.m. Present His Worship the Mayor, and a full board.

THE MINUTES.

The minutes were read, and Mr Hebbard moved, seconded by Mr Layzell, that they be suspended and the minutes of the previous meeting be read.

Mr Lewis moved in amendment, seconded by Mr Trahey, that the minutes be adopted as read, it was incompetent to reconsider minutes already passed without proper notice. The amendment was carried by four to two.

THE ADDRESS TO THE GOVERNOR.

The clerk was directed to read the Governor's reply to the address, when Mr Hebbard moved, seconded by Mr Layzell, that the Council adjourn till the usual hour on Monday evening next; it was useless to continue the business of the Council if the legality of the previous meetings could not be discussed; the motion was lost by the same vote, and the reply was read.

Mr Gowen moved that it be received and filed.

Mr Hebbard protested against the document being filed as it was the result of an illegal meeting, and if a committee were given, he would so move it; he therefore moved that the Council adjourn.

The motion was lost.

PUBLIC CATTLE MARKET.

The report of the committee recommending the favorable consideration of the application of Messrs J. P. Davies & Co., was presented, also of resident property holders recommending the same.

Mr Lewis moved that the report be received and filed, and the same committee report at next meeting on the power of the Corporation to grant the privileges asked for.

Messrs Trabey and Layzell thought that time should be given to neighbors to offer any objection if they have any. There were two schools in the neighborhood, and if they petitioned against it the Council was in duty bound to consider these petitions, much as it might wish to grant the application.

Mr Lewis's motion passed.

COUNCIL RECORDS.

A motion was introduced by Mr Hebbard, seconded by Mr Layzell, requiring the Town Clerk to produce the Record Book and explain away a charge made outside of a falsification of the records, by the addition of certain words after the Council had adjourned.

Mr Lewis objected, as the Councillors had access to the Kecord Book at all times.

After some debate the book was produced, and the clerk most clearly and satisfactorily explained the alleged irregularity to the satisfaction of the rest of the Council, and the Council adjourned till Monday evening next, at the usual hour, unless sooner convened by the Mayor.

V. Admiralty Court.

(Before Chief Justice NEEDHAM.)

MONDAY, December 10th,
RE STEAMSHIP OR VESSEL "FLY."

Cause of Possession—John Dougal jr., and James Dougal, plaintiffs claim possession of the steamer Fly, formerly known as the Cariboo, by reason of being the registered owners of a majority of the shares.

John Mackenzie appears to defend as mortgagee of 60-64th shares alleged to be mortgaged to him by Thomas Dougal.

The Attorney General and Mr Alston, instructed by Pearkes & Green for plaintiffs. Mr McCright, instructed by Mr Bishop for defendant.

The plaintiffs, by their affidavits, allege that they are the owners of 42 shares, and Thomas Dougal of the remaining 22 shares, and the defendant claims to be mortgagee of the whole ship under a mortgage of the Cariboo given by Thomas Dougal; the plainiffs, allege that Thomas had no right whatever to mortgage the vessel, and that he was not the sole owner of the vessel.

The Cariboo was purchased in 1864 by Thomas and George Dougal, and out of her remains a new steamer was built which has been registered under the name of the Fly, the registered owners being John Dougal, Jr., 30-64th, James Dougal 12-64th, and Thomas Dougal 22-64th.

The Act on Petition was read by Mr Alston, and the answer by Mr McCright. Mr Alston then read the rejoinder and the affidavits in support of the plaintiffs case and Mr McCright read the affidavit in support of the defendant's case.

This occupied the Court all day and at 4:30 p.m., the Court rose and adjourned till noon to-day.

From the Mainland—The steamer Enterprize arrived yesterday afternoon from New Westminster with 92 passengers, including His Honor Judge Begbie, Messrs. Ball, Crease, Franka, Brew, Saunders, Dr. Jones, Dendy, Bushby, Ker, Capt. Holmes, Ensign Woltenden, Ensign Ladner, Connell, Wolsey, Westgarth, Capt. Cooper, Claudet, Hitchcock, Spence, Armstrong, Capt. Irving, McCrea, Holbrook, Robson, Webster, Orr, Oppenheimer, Capt. Butler, Pittfield, Holmes, Pooley, Nagle, Fisher, Clute, Clarkson, Bruckman, and a number of ladies and gentlemen for the Governor's ball, whom the Hudson Bay Company with characteristic liberality, convey free of charge. The party had a merry time on board, and came alongside the wharf singing the national anthem in fine style. Our exchanges contain no upcountry news. From Mr Green, a miner just arrived from Cariboo, we learn that the weather was still very mild and open when he left, enabling claims to work, and the results of mining operations generally were very satisfactory for this season of the year. Grouse Creek was proving itself richer and richer. The roads down were in fair order. The New Westminster Dramatic Club, assisted by the Orpheus Glee Club, gave a performance on Saturday evening for the benefit of the Hyack Band, which passed off successfully.

Removal of the Capital—The steamer Enterprise yesterday removed the capital bodily to this Island. Some wag last evening posted the following on the Volunteer order board: "Wanted—Three men to proceed to New Westminster to take charge of the two persons left there, Mr Scott, and the Constab."

THE RE-CALCUTRANT MEMBERS.—The City Council last night, owing to the vagueness of two of its members wasted a great deal of valuable time on matters of little or no value at all. Councillors should bear in mind that they are a representative body elected to discharge public business with all due despatch instead of trifling away time, consuming fuel and rent, putting the city to additional expense to satisfy private pique or to gratify unworthy and ill-founded spleen. Councillor Gibbs very properly called the councillors in question to account for their conduct, and we hope we have seen the last of such unbecoming exhibitions.

POLITICAL.—Dr Helmcken yesterday accepted a numerously and respectfully signed address requesting him to stand for the city of Victoria; The Doctor's return is sure, Mr Holbrook of the sister capital we understand has also received a requisition to stand for this city. Mr Holbrook is well known on both sides of the water, and his popularity is indisputable. He will make a formidable opponent to the other candidate for the city, whoever that may be, and we admire his pluck in coming forward. Electors! vote for good men and true.

ELECTORS, BEWARE OF ARTIFUL DOGGERE! A scheme is on foot to send improper men to the Council. To effect this disgraceful end, men are to be sent through the city and districts to advise electors not to pay any attention to the proclamation on account of its manifest unfairness. By this course, it is hoped, but few people will come to the hustings, and the plotters have it arranged to run in one of this charming friends without a contest. Look to it that you are not gulled by this pack of "artful doggers."

COOL.—Our evening contemporary of yesterday, with characteristic effrontery, says: "We certainly have no objection, nor have the people any objection, to this Colony being given peaceably, and for an equivalent, by the Crown over to the United States, but to be taken ingloriously at a maulish in time of war, is too humiliating a spectacle to contemplate!" Such sentiments, it is needless to say, find no response save in the disordered brain of the writer, whose presumption is exceeded only by his cowardice.

At a late hour last night, we were fully authorized to announce that at the request of numerous commercial friends, Mr Southgate will offer himself as a candidate for the representation of Victoria and Esquimalt Districts at the ensuing election.

PUBLIC MEETING.—Willis Bond has called a meeting of electors at the Pioneer Rifle Co's Hall, this evening, to consider the propriety of not selecting representatives. A collection will be taken up to defray expenses.

A RECONCILIATION.—Mutual explanations place last evening after the Council meeting between the Mayor and Councillor Layzell in reference to certain objectionable remarks and all causes of difference were healed.

CORRECTION.—In our editorial of yesterday the proportion of popular members to be selected by the people was stated to be three instead of four, out of the eight representatives to be sent from this Island to the Legislature.
